Technology Fast 50™ Türkiye Program	26

METİN ASLANTAŞ
Technology, Media & Telecommunications (TMT) Industry Leader
Deloitte Türkiye

It has been another challenging year, with inflationary pressures elsewhere in the world and at home, tightening monetary and fiscal policies, a resulting race to safety and guaranteed return have all been weighing in on the cost of capital that was available to fast-growing startups since the pandemic, on top of the talent exodus and regulatory uncertainties putting pressure on the Turkish technology sector. No matter how hard the headwinds are, the industry continues to show resilience and companies are finding impressive ways to overcome these challenges.

Along with our long-time program partner Meta, this year we are welcoming Trendyol as a new partner to our signature Technology Fast 50™ program in Türkiye. We, jointly with our program partners, continue to put spotlight on some great achievements and present a set of vibrant companies that make an impact. This year, we continue to honor a couple of Fast 50 winners with "Meta Women in Tech" and now with the addition of "Trendyol Positive Impact" special awards – an achievement for a true sustainable society with an emphasis on the vitality of tech for good. In fact, from top to the bottom of this year's Fast 50, every company is making its own contribution and showing us a way out by bringing new, better, and more effective solutions to the challenges we face in our increasingly complex and connected society.

As our Fast 50 program shows, Turkish tech industry is a key driver of economic growth. The average growth rate of the top 10 2023 Fast 50 winners is an impressive 3,980% across sectors and domains including many SaaS providers of fintech, tourism, logistics, AI and IoT. These companies are solving wicked problems, providing employment, and supporting the next generation Turkish professionals.

The diversity of the ideas and success created by Turkish technology firms is phenomenal. From payments to sustainable energy, from regtech to proptech software, the winner list is full of various bright ideas.

Again, we see a sizeable percentage of new entrants in the list, a solid proof of the vibrant industry in Türkiye.

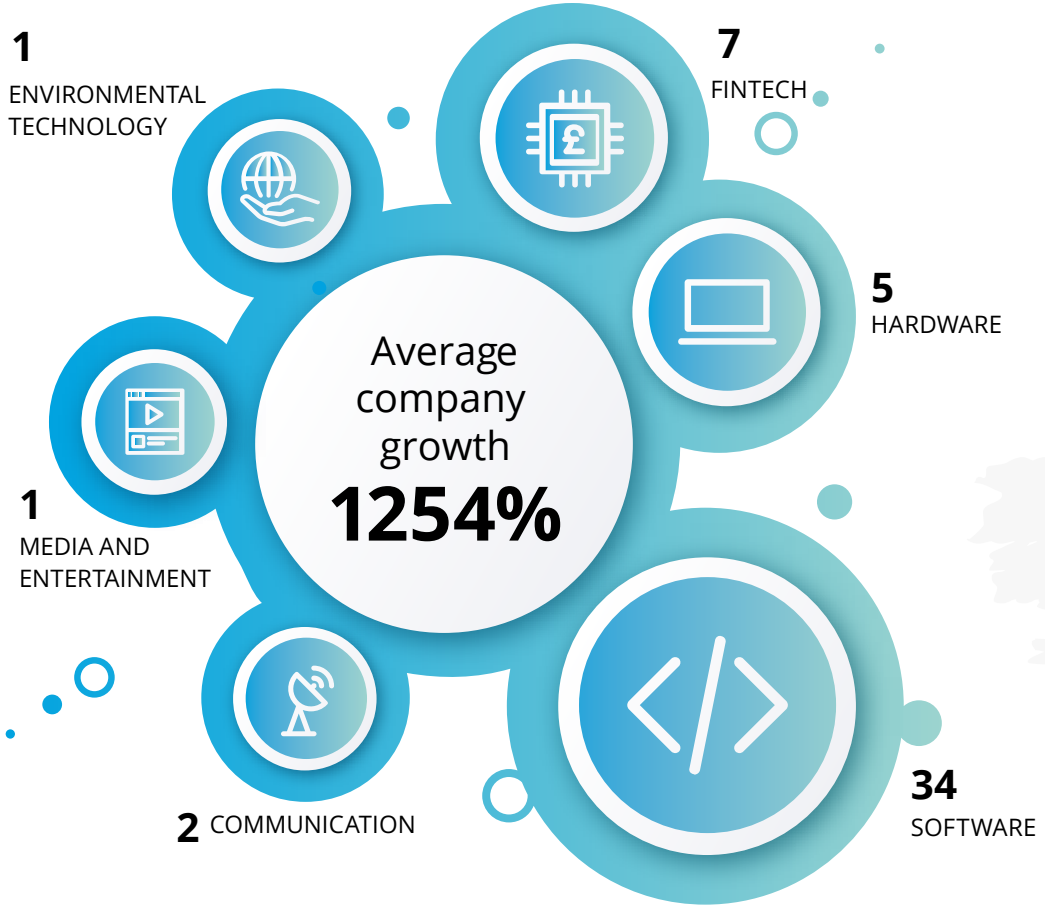

I am enormously proud that Türkiye is home to so many companies of such great talent. Above all, Fast 50 program is Deloitte's commitment to this talent that will shape the future of business. As such, we take great pride in identifying the fastest growing technology companies in Türkiye whom we believe contribute greatly to the digital transformation of the Turkish industries and enhance class mobility and equitable wealth creation. Our Technology Fast 50 program is a great means to do not only just that, but also celebrate the entire technology ecosystem for its productivity and creativity.

I want to extend my gratitude to Meta and Trendyol for their cooperation and support in bringing Fast 50 2023 Türkiye.

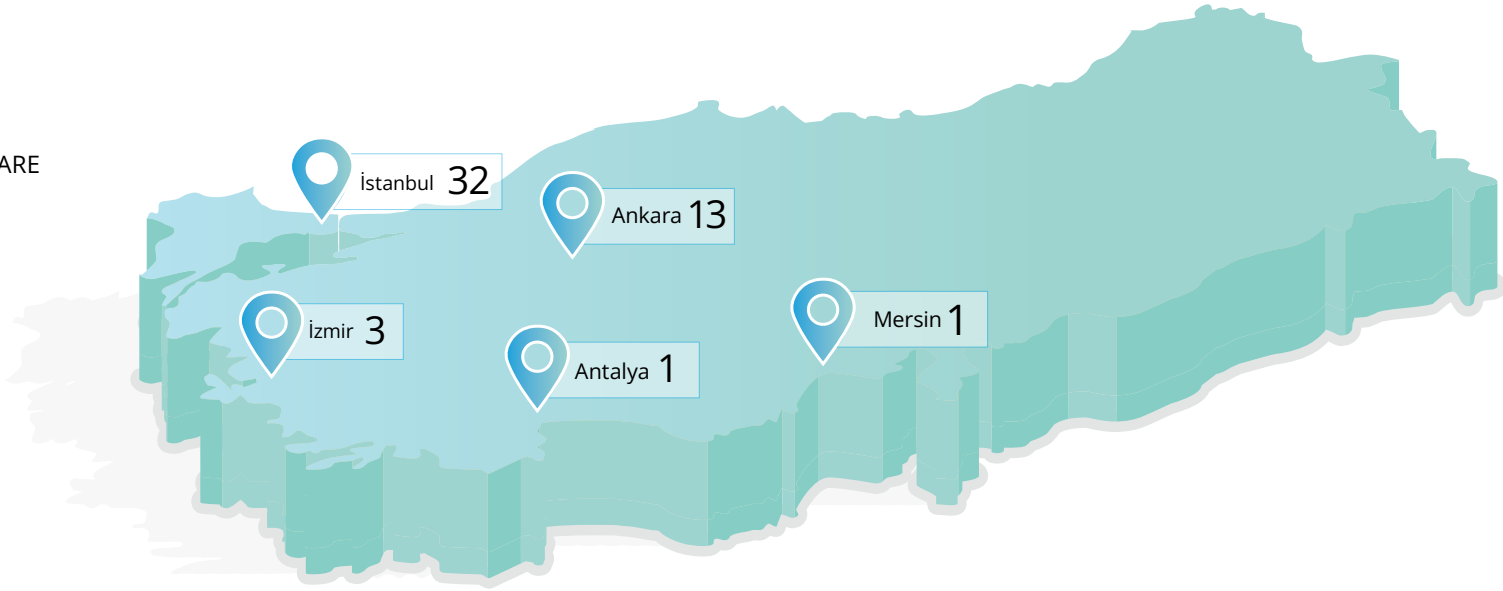

Once again with great pleasure, I present you the 50 fastest growing technology companies of Türkiye.

Technology Fast 50™ Türkiye 2023 Big Stars

This category recognizes the companies that have achieved € 100,000,000 or more in revenues during the fiscal year 2022.

Technology Fast 50™ Türkiye 2023 Big Star Award

Ahmet Akyol
CEO, ASELSAN

Ankara

www.aselsan.com.tr

aselsan

ASELSAN is a company of Turkish Armed Forces Foundation (TSKGV), established in 1975 in order to meet the communication needs of the Turkish Armed Forces by national sources. ASELSAN is the largest defense electronics company of Türkiye whose capability/product portfolio comprises communication and information technologies, radar, electronic warfare, electro-optics, avionics, unmanned systems, weapon systems, air defense and missile systems, command control systems, transportation, energy, security, traffic, automation and medical systems. Today, ASELSAN exports its systems and it ranks 47th in the list of the world's top 100 defense industry companies (Defense News Top 100). ASELSAN, together with the technology emphasis in its vision, has targeted to be a company that maintains its sustainable growth by creating value in the global market; preferred due to its competitiveness, trusted as a strategic partner, and caring for the environment and people. Together with the highly qualified engineering staff within more than 10.000 employees, being the main driving factor of the company's success, ASELSAN allocates 7% of its annual income for self-financed research and development activities. As Türkiye is a member of NATO, ASELSAN sustains its production in accordance to NATO Standards and international military standards for the products delivered to markets. Exporting high-tech systems to 85 countries as a reliable partner, Türkiye's leading defense company ASELSAN is increasing its share in global defense and technology markets.

Technology Fast 50™ Türkiye 2023 Big Star Award

Serdar Toraman
CEO, İnnova Bilişim Çözümleri

İstanbul

www.innova.com.tr

Established in 1999, İnnova stands as a pioneer in Turkish IT sector and since 2007, it has grown and flourished under the Türk Telekom banner. İnnova champions sustainable growth and fuels technological transformation while enhancing its clients' operational efficiency and performance indicators through innovative and tailor-made solutions. With a robust R&D backbone, İnnova leads the charge in technological advancements, arming itself with the ability to anticipate sectoral demands, engineer state-of-the-art solutions and instigate industry-wide transformative changes. İnnova offers financial technologies solutions under the PayFlex brand, Internet of Things solutions with SkywaveIoT, administrative and legal receivables tracking solutions with LEGA and network management solutions with Network 360. İnnova also offers a wide range of other solutions, including robotic process automation (RPA) and managed robotic process automation services (RaaS) solutions, e-Business, document management and service quality management tool NOVA, network discovery management platform Cossmos, a fault and demand management system HERMES. İnnova also provides managed services, outsourcing services and consultancy services. The company offers hardware, kiosk, Digital Signage and infrastructure services on the system integration side. İnnova utilizes SAP, business intelligence, CRM, IT governance and project management solutions in third-party products and services. İnnova has received more than 80 prestigious awards in the last eight years, including the Deloitte Fast 50 Big Star Award, the top prizes in two categories of Bilisim 500 and the Great Place to Work Certificate.

Technology Fast 50™ Türkiye 2023 Big Star Award

Yaman Tunaoğlu
CEO, Karel

İstanbul

https://www.karel.com.tr

KAREL

Founded in 1986 with domestic capital, Karel is Türkiye's leading technology company today with more than 4500 employees, having all processes from design to production in R&D. As to date, the company has more than 1,000 employees and has been certificated as the responsible company in the sphere of human rights at work. Smart Solar Technologies is listed on the BIST50 Board of the Istanbul Stock Exchange in 2023.

Meta
Women in Tech Award

This award is for companies operating in the technology sector that advocate for increasing female participation and their promotion in the workplace.

Meta

Technology Fast 50™ Türkiye 2023 Meta Women in Tech Award

Nihat Narin
CEO, Belbim

İstanbul

www.belbim.istanbul

BELBİM is an affiliate company exclusively authorized by the Istanbul Metropolitan Municipality to manage the 'Electronic Toll Collection Systems' (EÜTS). Over time, it has added financial technology services to its EUTS services. BELBİM has turned into an electronic money institution with the Istanbulkart it developed. The entire financial ecosystem is managed within the scope of the CBRT and banking legislation. Belbim is one of the ambassador companies in the mission of carrying Istanbul to the future with its smart city vision. Istanbulkart started to be used in shopping in 2020 with the vision of 'City Life Card'. At the point reached in 2021, the need for a physical card has disappeared and public transportation payments within Istanbul have been digitized and replaced by Istanbulkart Mobil. BELBİM has five basic service operation areas Transit Fare Payments: BELBIM INC is the operator of the whole electronic fare collection system in Istanbul public transit. City Life Payments: As a payment mean also in shopping with the vision of 'City Life Card', Istanbulcard is now acceptable at 100 thousand points. Digital Solutions: BELBIM INC end-to-end digitalized the entire public transit payments via Istanbulcard Mobile which digitalized the physical card. Welfare Services: Fintech solutions are also designed to support Istanbulites in times of need. B2B Services: Money/Subscription topping-up services provided to the organizations and all transit and shopping payments offered to personnel are integrated under one system.

Trendyol Positive Impact Award

This award recognizes companies that have the greatest positive environmental, social, and governance impact on our society and the planet, via leveraging the power of technology.

trendyol

Technology Fast 50™ Türkiye Program

The program celebrates Türkiye's fastest growing high-technology companies. The awards identify the trends that are shaping the technology, media and telecommunications sectors today. Based on revenue growth percentage over a four year period, the program includes companies from all related industry sub-sectors:

- Communications
- Environmental Technology
- Fintech
- Hardware
- Healthcare and Life sciences
- Media and Entertainment
- Software

To be eligible for Deloitte Technology Fast 50 Program, companies must meet the following criteria:

- to be a technology company which:
  – has its own proprietary technology that contributes to a significant portion of the company's operating revenues
  – manufactures a technology-related product devotes a significant effort to research and development about technology
  –is a technology incentive, or use unique technology to solve problems

- to be in business for a minimum of three years
- whose parent company must be Turkish
- owned and headquartered in Türkiye
- whose operating revenues must be at least
- €30,000 for 2020 and €500,000 in 2022.

Deloitte Technology Fast 50 Program is part of Deloitte's global Fast 500 program which runs simultaneously in countries such as USA, Canada, United Kingdom, France, Norway, Sweden, The Netherlands, Germany, Central Europe, Israel, South Africa, China, Australia, Hong Kong, India, Japan, Korea, Malaysia, New Zealand, Singapore, Taiwan, Thailand, South Korea and Finland.

Benefits of Participating at Technology Fast 50 Program: Technology Fast 50 winners receive exposure and recognition upon the release of the rankings from both the media and business communities. The benefits are significant: Networking opportunity with other fast-growth Turkish technology companies and business organizations at our awards ceremony

- Networking opportunity with other fast-growth technology companies and business organizations from around the world through Deloitte Technology Fast 50 Program
- Access to leading edge industry research and commentary
- Recognition from the business and financial communities
- Benchmarking opportunity with similar companies
- Increased attention from the business and investment communities
- Media coverage

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see **www.deloitte.com/about** to learn more.

Deloitte provides industry-leading audit and assurance, tax and legal, consulting, financial advisory, and risk advisory services to nearly 90% of the Fortune Global 500® and thousands of private companies. Our professionals deliver measurable and lasting results that help reinforce public trust in capital markets, enable clients to transform and thrive, and lead the way toward a stronger economy, a more equitable society and a sustainable world. Building on its 175-plus year history, Deloitte spans more than 150 countries and territories. Learn how Deloitte's approximately 415,000 people worldwide make an impact that matters at **www.deloitte.com**.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network member firms, or their related entities (collectively, the "Deloitte Network") is, by means of this communication, rendering professional advice or services. Before making any decision or taking any action that may affect your finances or your business, you should consult a qualified professional adviser. No representations, warranties or undertakings (express or implied) are given as to the accuracy or completeness of the information in this communication, and none of DTTL, its member firms, related entities, employees or agents shall be liable or responsible for any loss or damage whatsoever arising directly or indirectly in connection with any person relying on this communication. DTTL and each of its member firms, and their related entities, are legally separate and independent entities.
